

EPSON INTERACTIVE PROJECTOR

EPSON®

THE BRIGHT CHOICE IN
INTERACTIVE PROJECTORS
FOR TODAY'S BYOD
CLASSROOM.

PRESENT FROM YOUR iPad OR iPhone WIRELESSLY

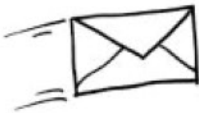

Project documents and images straight from your iPad, iPhone or iPod Touch with an optional wireless network card and Epson iProjection app. Now you can enjoy the wireless freedom you've come to expect from your mobile device, and deliver your iOS content to the big screen.

SAVE your classroom notes on a USB drive or the network drive. Never lose any of your classroom notes again!

PRINT your presentation notes wirelessly (peer to peer) or to the network printer, so teachers and students can walk away with the action points or key takeaways.

EMAIL the meeting notes from the Whiteboard to your email address or to a group address, so all attendees can have a record of the meeting

SIMPLY ENGAGING

With two interactive pens your journey to class engagement is only as far away as your imagination. One touch auto calibration at setup, and smooth, fast, accurate response from there on. Enjoy a user experience that is incredibly simple to use.
