

GOOGLE MANAGEMENT CONSOLE

Manage 10 or 10,000 Chromebooks with ease

The web-based management console makes it easy for schools to configure and manage a set of Chromebooks across a school, district, or country.

- **Create user groups** - Apply policies, apps, and settings to different sets of users. Group students by grade level or subject. Separate students and faculty.
- **Pre-install and block apps** - Blacklist, whitelist, or pre-install apps, extensions and URLs.
- **Track assets** - Assign devices to specific students and faculty and get configuration and usage reports.
- **Manage user access** - Control who uses your Chrome devices: prevent outside users from logging in, disable Guest Mode, or designate specific types of users for your devices.
- **Configure network access** - Set network and proxy settings to make it easy for users to get up and running and ensure they're protected by web filters and firewalls.
- **Customize user features** - Modify user settings like bookmark and app sync across computers and show some school spirit on your devices with custom Chrome desktop themes.

Teacher Dashboard

Portfolio - Push Google Site templates to students, observe progress in a Dashboard.

Smart Share - Share and copy files quickly and easily.

Parent Portal - Give parents account-free, read-only access to student work in Drive.

Teacher Notes - A place for educators to share information about students.

Interact

Participate directly with students through the browser

- Open and close web pages on student devices
- Priority message students
- Take snapshots of student screens

Professional Development with Google Certified Trainer

How to develop a search strategy for yourself and your students.

We will look at the various tools inside Google search to help narrow down search results that are relevant to the ability of the students. This session gives teachers and students an alternative to conducting random Google searches which saves time and limits the tendency for students to hand in mindless assignments.

How to use Google to increase student engagement and motivation

We will look at the various Google tools and demonstrate how these tools allow for real time collaboration, immediate feedback between staff and students, as well as allows students to self-select their information whilst learning

Chrome web apps that will make you go 'Wow'!

We will look at a number of free Chrome apps available to staff and students that will facilitate everything from photo and video editing through to literacy development and more.
